Dear Parent/Carer

GCSE Science – Revision Guides

With the current reforms to GCSEs moving from A* - G to a 9 - 1 grading and the requirement for end of course exams, the importance of revision and effective exam preparation is now more important than ever. All students are required to complete between 7 ½ to 10 ½ hours of examination during May and June of Year 11 just for Science. These examinations will be assessing knowledge and understanding taught over 3 years from Year 9 to Year 11. It is essential that students are provided with effective revision material for them to succeed in these exams.

The Science team at Looe are passionate about our students making exceptional progress during their 5 year journey though Looe Community Academy and have organised the opportunity for all students to purchase the most up to date and effective revision guides. These new revision guides have the following key features:

- reflect the current reforms in GCSE Science;
- are specific to the AQA examination board used at Looe (both Trilogy and Separate Sciences);
- are published by the same company that produce the text books used in class; and
- include key scientific knowledge, check lists, practice exam questions, exam technique tips and answers.

Because we can bulk purchase these revision guides, we can offer them at cost and at a substantial saving over the highstreet price. The cost of each book will depend on the Science course being studied, Science Trilogy or Separate Sciences, and student will need to purchase 3 books, one for each element of Science (biology, chemistry and physics).

Science Trilogy cost:

Biology	£3.30
Chemistry	£3.30
Physics	£3.30

Separate Science cost:

Biology	£4.40
Chemistry	£4.40
Physics	£4.40

Please complete the following form to take advantage of the opportunity and purchase Science revision guides to effectively prepare your son or daughter for their GCSE Science end of course exams.

For convenience, we offer payment via ParentPay. You can still pay by cheque made payable to 'SMART – Looe Community Academy'.

If you have any further questions please do not hesitate to contact me.

Yours faithfully

Ed Gilbert
Leader of Learning for Science
